

Alias

atlas stool - 750

Stools with stove enamelled steel base plate, leg in conic stove enamelled steel; swivel seat in MDF and expanded polyurethane upholstered with fabric.

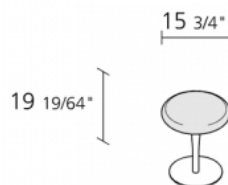

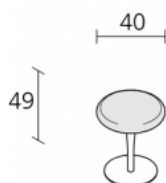

design
Jasper Morrison

The main purpose of the atlas collection is based on one single concept of legs in conic white and grey stove enamelled steel. Tables and small tables are developed with the same structure, on a round or cross base, with tops available in different shapes and dimensions, made of aluminium with laminate or veneered in different wood finishes including the new canaletto nut one. The atlas system consists of various models. A collection of comfortable chairs including stools with different heights, with and without backrests, complimented by a wide collection of tables and small tables, available in different finishes. Together they furnish in a distinctive and functional manner, both home environment and contract settings.
