

Alias

tabu backrest plastic - 082

Chair with structure in solid ash wood and backrest in methacrylate. Available in transparent lacquered natural wood finish, or stained wood finish or stained colour finish.

design
Eugeni Quitllet

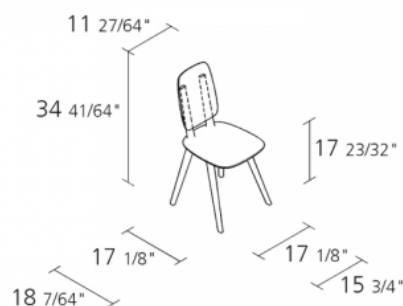

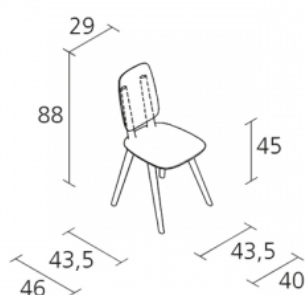

The collection of chairs and side table designed by Eugeni Quitllet reinterprets the hand-crafted tradition.

Presented in different versions, the basis of this project consists in joining different elements in solid ash wood, which are digitally operated and fitted together.

The version presenting a Plexiglass backrest is quite innovative and unique in the ambit of wood chair production. So it is that two quite different materials, wood with its natural connotations, and transparent polymer, fruit of technological research, come together to give life to a metaphysical object.

Tabu is available in ash, natural or dark stained oak, walnut or with a more contemporary stain finish in 12 trendy colours.

Dimension

Year warranty: 0 years

Production time: 0 weeks
