Special shapes & design:	n.a.
cleaning :	<a href="http://www.james.eu">www.james.eu</a>
design :	Carpet Sign studio

### Durability

- This rug can be used with under-floor heating.
- Roadkill has officially been tested and is suitable for residential use.

### Maintenance

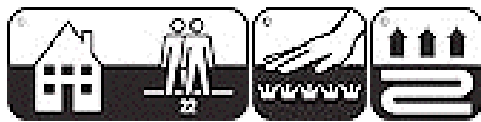

- It is important to vacuum your rug at least once a week to prolong its durability.
- a new rug will produce fluff, but this is temporary. This fluff does not affect the quality of your rug.
- In order to prevent heavy use on one particular location, we recommend turning your rug around once in a while.
- Due to our use of natural materials/dyeing processes, slight colour differences may occur.
- We offer personal maintenance advice via [www.james.eu](http://www.james.eu)

### Underlay

- For rugs to be placed on wooden floors or natural stone floors (e.g. marble), the use of an underlay is strongly recommended.

### Warranty

- Carpet Sign offers 5 years warranty (excluding shading)
