

Beech Connect is a flexible table system based on the sturdy three legged trestles. It may serve as a desk in a flexible workspace, as an impressive - 8 meter long - canteen table or as an simple elegant round bar-table.

The system is very versatile with table tops in different colors and sizes.

Beech Connect is also available in a stylish bar version, round and rectangular, perfect for informal gatherings. A spectacular version of the Beech Connect is a glass table top with a color gradient coating.

measurements with D-frame 71cm (BDF 71):

available widths: from 200 up to 810cm and beyond

available depths: 90, 100, 110, 120, 130 140 and 160cm
