

Ike

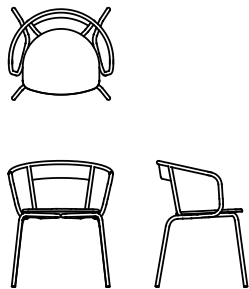

Victor Vasilev · 2016

It's the oriental inspiration from the art of ikebana that we find in Victor Vasilev's Ike stool with its striking contrast of nature's luxuriance and the simple, severe forms in which it is contained. The base is a steel plate topped by a simple support from which round tubes emerge like climbing plants to hold the seat.

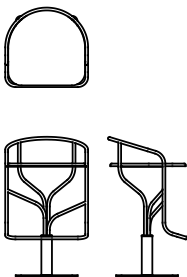

Available models

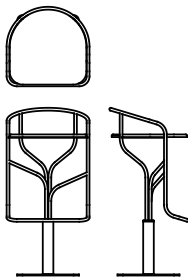

Stackable chair in tubular steel. Seat in polyurethane or eco-leather. Backrest in polyurethane. Fix or swivel stool with steel base and tubular steel frame. Available in two different heights, with polyurethane or eco-leather seat. Table with steel frame and top in layered laminate, available in three heights. The IKE collection, except the sviwel stool, is available also for outdoor.
