

Space-Frame

Space-Frame by Marcel Wanders shares the same refined freedom of not being bound or limited by cables, and takes it a step further by claiming complete independence. In fact its strong architectural frame, a geometrical net of light metal wires and transparent lights, hangs on a hinge that allows it to change position in space.

Designer	Marcel Wanders
Year of design	2014
Material	Metal wire frame, poly carbonate lenses, ultra thin suspension wire.
Additional	Powered through Electrosandwich by Marcel Wanders

technical

**Amount of LED's:**

Large: 64

Small: 34

Colour temperature (degrees Kelvin, K) Colour rendering index:

2700K (warm white, comparable to incandescent) CRI_Ra > 80

Luminous flux (Lumen, lm):

Large: 700 lm

Small: 400 lm

Power consumption

Large: MAX 20W

Small: MAX 9W

Mains Dimmable

Cable Length

4M (10M on request)

Cable Colour

Transparent with tinned cores

Canopy

Cylinder in matching finish: colour & nickel.

Colours

Copper
