

half and half coffee table

Precise bordering lines unify to create Half & Half coffee table. The airy four post frame with glass top is punctuated by the bold steel plate which spans across half the bottom opening, creating a strong visual symmetry from any angle. Lower steel plate can be used as an additional surface to meet various storage needs. The table is constructed from solid square steel bar and finished in flat black or flat white powder coating.

Specifications Powder coated square steel bar available with starphire or smoked glass top. Powder coat finishes available in flat black or flat white.
