

MARACA – the new hammock lounge from ames
Sala collection design sebastian herkner 2019

Sebastian Herkner has created a very special object for ames with maraca: a lounge chair inspired by the classic hammocks of Colombia. Natural colours and folkloric patterns radiate zest for life and make maraca a real eye-catcher. Made of pure cotton and powder-coated steel, the chair is available in three colour.

Maraca also connects in Sebastian Herkner's design. It is a connection between lounge and deck chair, statement piece and casual object. With maraca, the designer unites the hamacas' traditional materiality and patterns with a contemporary, clear style. The powder-coated steel frame is made by ames in a long-established manufacturing plant in Bogotá. The lounge covers are woven by hand only by female artesanos in Bolívar.

Dimensions:

W 74,7 cm x D 86,7 cm x H 88,5 cm
Weight: 11 kg approx.

Production method:

The lounge covers/dress are woven by hand.
