

## deadgood | Scafell Cave | Deadgood Studio

The 'Scafell Sofa', designed in house by the Deadgood Studio, is a simple modular sofa system with a comfortable and generously proportioned seat, a playful colourway and a subtle smiling stitch detail.

Featuring seating bases in three sizes and available with optional arms and two heights of back rest, this versatile product can be specified in twelve configurations, either side by side in a traditional linear format or back to back to create a stunning island unit.

The mixed sizes of seat width and backrest height reference the boulder field at the top of England's most majestic and highest summit.
