CHAIRIK
Erik Magnussen designed the CHAIRIK series in 1996. Magnussen had a pragmatic view on design and production, and used his imagination to challenge both. The results have been outstanding.

No matter which way you rotate or turn the chair, CHAIRIK is the uttermost complete and simplified design. The design was based on studies of the best possibilities of utilizing compression molded plywood and plastic, making it incredibly comfortable. The chair has a solid support, without pressure on the spine.

CHAIRIK is the perfect stacking chair for audiences that come and go. CHAIRIK is available in 29 different models and a large variety of shells and upholstery.

DESCRIPTION
Chair with 4-star base in aluminium and seat with extra width. Noise dampening plastic gliders protect the floor and ensure that the chair is easy to move around.

UPHOLSTERY
CHAIRIK can be upholstered in fabric or leather, or painted in the colours that you like the best. The chair is also available with seat upholstery, inner side or full upholstered in two different thicknesses.

CUSTOMISATION & FEATURES
CHAIRIK can be individualized (on request at an additional cost). The individualization can include own choice of colour, frame or own graphics or company logo. Premounted features include: on/off seat upholstery, gripping hole in shell.

PACKAGING
The chairs are packed in strong cardboard packaging with a protective piece of cardboard between each chair and protection plastic.
