CHAIRIK

Erik Magnussen designed the CHAIRIK series in 1996. Magnussen had a pragmatic view on design and production, and used his imagination to challenge both. The results have been outstanding.

No matter which way you rotate or turn the chair, CHAIRIK is the uttermost complete and simplified design. The design was based on studies of the best possibilities of utilizing compression molded plywood and plastic, making it incredibly comfortable. The chair has a solid support, without pressure on the spine.

DESCRIPTION

Flexible bench system with 2 – 6 seats. Available with or without armrests and optional side table.

UPHOLSTERY

CHAIRIK can be upholstered in fabric or leather, or painted in the colours that you like the best. The chair is also available with seat upholstery, inner side or full upholstered in two different thicknesses.

CUSTOMISATION & FEATURES

CHAIRIK can be individualized (on request at an additional cost). The individualization can include own choice of colour or own graphics or company logo.

PACKAGING

The bench system is packed in strong cardboard packaging.
