

DESIGNER
ERIK MAGNUSSEN
(1940 – 2014)

Erik Magnussen graduated as ceramicist in the sixties, and started working for the highly esteemed Copenhagen porcelain industry followed by Stelton, where he designed the renowned thermos.

Today, Erik Magnussen's designs are exhibited in museums all over the world. He has received numerous acknowledgements and awards for his work.

PLATEAU

Erik Magnussen designed the PLATEAU series in 2009. Graduated as a ceramicist, Erik Magnussen, made the first model for PLATEAU in clay.

He found inspiration for PLATEAU by contemplating the form of his own left hand.

PLATEAU is a lounge chair, which reflects modern times, where leisure and work converge together.

Ideal as a lounge chair, PLATEAU is available in a tall and a PETIT version. Its armrest provides room for your laptop or coffee cup and its presence makes a persuasive testimony to anyone in the grey-zone, a state between work and play.

PRODUCT INFO
