DESCRIPTION

The GMG Chaise Longue was designed in 1951 by Greta M. Grossman and with playful elegance it is perfectly angled for lounging whilst preserving all the streamlined qualities of a mid-century design. Built in a shape designed for relaxation it mirrors the body's natural curves while appearing to float above its distinctive slender legs – a genuine signature of Greta M. Grossman's work. The GMG Chaise Longue shows a strong interest in merging functionality and comfort, while simultaneously remaining a delicate and powerful design language, revealing unique, light and iconic touches. Representing a literal link between European design and Californian modernism, Grossman designed the GMG Chaise Longue by successfully combining her Swedish fondness for colour and texture with the opportunities allowed by bright and open spaces of Southern California.

MATERIALS

The Lounge chair is constructed with a frame of solid pinewood and plywood

Legs made of Ø12 mm steel rod // Black - powder coated RAL 9005 / gloss 20-30

FOAM

Parts can be separated and sorted for recycling.

CLEANING AND MAINTENANCE

For cleaning the upholstered surface, first try to brush off the dirt gently. If this is not enough then vacuum the surface.

If further cleaning of the padding is needed, a stain remover is recommended. The cleaning has to be gentle and must always be tested on the most invisible area of the surface before the actual cleaning. Avoid blotches by gentle, circular rubbing towards the stain.

To avoid stains, quickly remove the dirt with a piece of absorbing household wipe and clean with water and colourless washing-up liquid.

Do not use the following products for the padding:

- Undiluted cleaning liquids.
- Bleach.
- Ammoniac.
- Soap for hard surfaces.

For further cleaning guidance, we refer to information regarding the specific textile.
