## Coppélia Suspended

---

With a graceful sense of wonder, a beautiful mechanical doll appears to magically come to life in the famous ballet Coppelia. In the performance the ballerina traces, with sinuous movements, a delicate after-image in the air, which inspires the fluid motion in the design of Miyake's Coppelia Suspended Lamp.

## technical

### Amount of LED's:

54 LED Tubes

### Colour temperature (degrees Kelvin, K) Colour rendering index:

2700K (warm white, comparable to incandescent) CRI\_Ra > 80

### Luminous flux (Lumen, lm):

676 lm

### Power consumption

**MAX 33W**

Dimmable:

Yes mains 1-10 (compatible with most domotica systems)

For more information about the power supply/driver specs

### Cable Length

4M (10M on request)

### Cable Colour

Transparent with metal core

### Canopy

Pebble white or black

## Technical (ul)

**Amount of LED's:**

54 LED Tubes

**Colour temperature (degrees Kelvin, K) Colour rendering index:**

2700K / CRI 90

**Luminous flux (Lumen, lm):**

676 lm

**Power consumption**

MAX 20W

**Dimmable**

Mains dimmable, with recommended dimmer only.

**Cable Length**

13,12 ft

**Cable Colour**

Transparent with metal core

**Canopy**

Pebble white or black

---

## Recommended dimmer specs

For fluent dimming behaviour we advise a dimmer that is compatible with the following specs:

Transformer type: Electronic Low Voltage (ELV)

Load type: Capacitive load (C-Type)

Dimmer type: Trailing edge / Reverse phase, 1-10V dimmable (please make sure the right provisions are made for 0-10V/1-10V dimming)

Please note the functioning of the dimmer and the power supply combination can never be predicted, it always needs to be tested in practice.
