Random Light II

BERTJAN POT

Designed by Bertjan Pot and introduced in the Moooi collection in 2002, the Random Light has become a best seller right from the beginning. It transmits a feeling of simplicity, softness, lightness and a touch of magic in a contemporary style. Almost twenty years later, the Random Light is as relevant and eye-catching as ever. Together with designer Bertjan Pot, we've updated the Random Light with enhanced user-experience and Bertjan Pot's original idea as key-focus. The end result is an aesthetically perfected and user-friendly design, with an enlarged lifecycle: the Random Light II.

Detailing

Almost twenty years after the launch, the Random Light is as relevant and eye-catching as ever. A Moooi original loved by many all over the world.

Dimmer

For fluent dimming behaviour we advise a dimmer that is compatible with the following specs.

DIMMER TYPE

Mains dimmable

Please note the functioning of the dimmer and the power supply combination can never be predicted, it always needs to be tested in practice.
