MATERIALS

FRAME

TEAK

We only use carefully selected, fully grown teak, which is harvested in accordance with the strictest environmental standards. The reason for its generally commended durability is the high levels of natural oils it contains. The resulting minimal moisture absorption prevents warping which gives it great stability. Moreover, the wood is extremely resistant to the influences of chemicals, as well as against attacks by vermin.

TEAK

TOP

SOLID SURFACE

Mass-dyed composite material, they combine mass with homogeneity, yet without seams or joints.

The basic ingredient of this product is aluminium trihydrate.

WHITE

CERAMIC

Made of inorganic materials that crystallise at very high temperatures and are thus very hard and resistant to wear.

WHITE

TRAVERTINE
