

Continuous Faudet-Harrison

Taking inspiration from upholstery designs of the 1920s, this deep-seated piece is notable for the use of continuous curves and a straight line sewn lengthways down the middle of the seat. A sophisticated design that comes as an armchair, sofa and sectional system. With the option of a fixed seat, a single feather cushion seat or a three feather cushion seat, on legs in bronze plated or aged brass tubular steel.

Made in Norfolk.
