Balzac
Matthew Hilton

An iconic early 90s design with genuine poise and balance. Balzac uses a double saddle-stitch on the arms to create the perfect curve. It is featured in Taschen's 1000 chairs, widely used in advertising and is considered by many as the final word in club chairs.

Made from a solid beech frame with multi-density foam and foam/feather cushions. Sustainable version also available with jute webbing and zigzag springs. Upholstered in natural fibres, animal hair and wool with a leather covered seat cushion. American oak legs.

Available as an armchair, two or three seat sofa, and ottoman.

Made in the UK.
