### Back panel:

Mdf lacquered in matching white or anthracite.

Paperback is a unique modular wall system that absorbs a minimum of space in your interior, but at the same time has a striking appearance. By adding books and accessories, the Paperback gets a very own, almost custom-made chart and set of colours.

A complete set consists of 1 solid wall panel of 30x60 cm, 60x60 cm or 120x60 cm with 13 horizontal slides (of which 3 have a larger 'tab') and 4 screws to mount each unit.
