MEZCLA JH20 & JH21

BY JAIME HAYON

2018

Mezcla is the Spanish word for “mixture” and reflects the signature trait of Spanish designer Jaime Hayon – and his new series of tables featuring a mix of shapes, sizes and colours in exclusive materials.

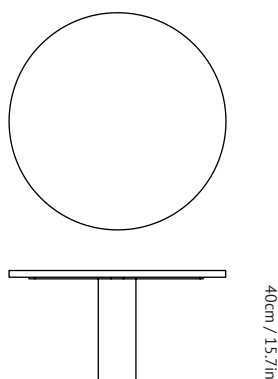

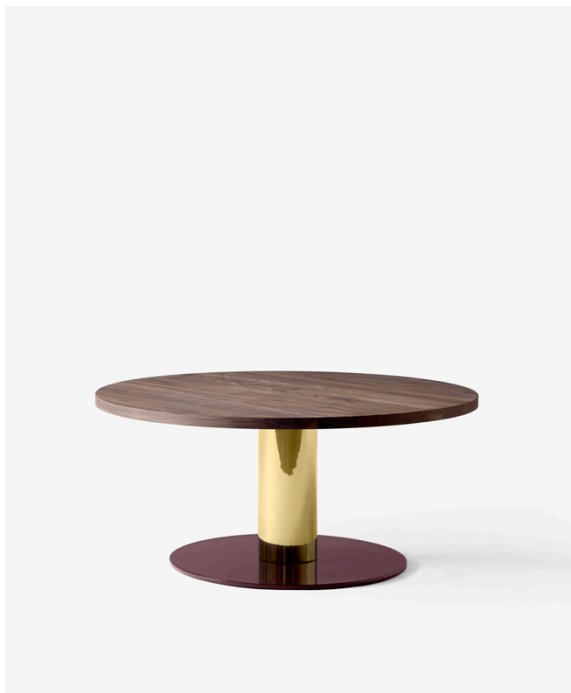

Drawing on classic geometric shapes, like the circle, oval and cylinder, each component is crafted in a different material with its own texture, finish and colour. The result is a composite of contrast and cohesion in a series of tables with no sharp edges. Meaning, you can sit anywhere you like and be equally as comfortable.

The Mezcla tables come in different sizes and heights, with the option of various types of wood or marble for the tabletop, polished brass or chrome for the stem, and curated colours for the base.

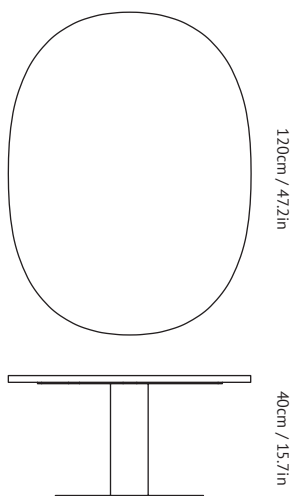

Whether placed individually in a private or corporate setting, or grouped together in a luxurious hotel, restaurant or commercial venue, it's a harmonious mix of differences. The perfect setting for different people to feel comfortable connecting with each other.
